## Find your Purrfect Companion

*Your new best friend is waiting for you!*

Here at Purrfect Companions Sanctuary, we create an environment where stray, abused, and neglected cats can be socialized and loved.

Our cats live in a home in a free roaming environment. They learn the joy of playing with other cats and sharing their living space. Because of this, we find that our cats easily adapt to life with an existing pet in your home.

We also spend time every day playing and socializing with our cats. They have learned to love and trust humans again, finding joy snuggling in your lap and chasing after their toys.

Because many of our cats have experienced unsettled conditions in their past, we take great care that they regain their health by receiving proper nutrition and any good veterinary care that they need.

Adopting a cat from Purrfect Companions Sanctuary, ensures your new friend will be confidently ready to take his or her place in your home.
